KEY STRENGTHS

- Able to work and communicate effectively in a multicultural environment.
- Flexible and adaptability.
- Quick learner and willingness to learn new skills.
- Both mentally and physically strong.

ABOUT ME

For the past years, I've been working on software development with PHP. I take an evaluative approach to solving issues and work through the process by trying out various solutions. I'm a self-starter and work well independently, but I'm also skilled at working in teams. I'm used to working in fast-paced environments and am very driven by goals and deadlines.
